Smart Coder

Senior Software Engineer

A productive Software Blockchain/Web/Mobile engineer with a passion for change and breaking previous records. My passion is creating world-class web applications.

Education

Bachelor's Computer Science

From 2010 to 2014 University in Split, Croatia Croatia

I have studied in the Faculty of Computer and Information Science.

Master's Computer Science

From 2014 to 2015 University in Split, Croatia Croatia

I have a master's degree from the Faculty of Computer and Information Sciences.

Work experience

Software Engineer

Since 2020 Mysticbets Chicago, United state

I have worked as a Senior Blockchain, Backend, Frontend Engineer. I have developed the backend of the Crypto betting Website and handled the bugs raised by development.

MERN Stack And React Native Developer

From 2018 to 2020 iGamez Private Ltd Bengaluru, India

I have worked as a Senior Backend, Frontend Developer.
I have been involved in betting platform development here. Have you ever played online betting? I have integrated dozens of betting providers and payment gateways like Betradar, BetEXCH, Ezugi, Vivo, Sagaming, TVBET, Live Games, Evolution, Betsoft, NSoft, Hog, NetGame, etc... Betradar API was difficult to integrate, but I could integrate it perfectly with my passion and skills.

Full stack Developer

From 2016 to 2018 Sonice Sonice UK Ltd Bracknell, United Kingdom

I have worked as a Web and Mobile and Blockchain developer in this company. I have developed a cryptocurrency exchange website for myself. I have created a validator named "hellenium" on the Stellar network. Also, I have created a token named "msc1". Also, I have been involved in many teams works for other websites and applications.

MERN stack Developer

From 2015 to 2016 iTechArt New York City, United States

I have worked as a MERN stack developer in this company. I have been involved in many website developments.
